PROFESSIONAL SUMMARY

Experienced Full-stack Developer with expertise in React, Node.js, Express, and MongoDB, adept at API development and proficient in both frontend and backend development. Skilled in project planning, resource allocation, and operational efficiency, with a proven track record in AI development and AI-assisted content generation. Demonstrated ability to drive productivity improvement through effective communication, problem-solving, creativity, and strong leadership. Ready to excel in a professional role, leveraging my diverse skill set and industry experience.

WORK HISTORY

FOUNDER & LEAD DEVELOPER

APPLYRIGHT | Jan 2026 - Present

- Architected and built a full-stack AI-powered resume platform (React, Node.js/Express, MongoDB) enabling users to generate, review, and optimize professional CVs tailored to specific job postings
- Integrated multi-provider AI pipelines (OpenAI GPT & Google Gemini) to power intelligent resume analysis, bullet-point generation, cover letter writing, skills extraction, and interview question preparation — with automatic fallback between providers
- Engineered a full admin dashboard with real-time analytics, user management, transaction monitoring, configurable system settings (maintenance mode, credit pricing, announcements), and one-click ad report generation

WIRELINE FIELD OPERATOR

SLB | July 2023 - Present

- Executed and monitored wireline logging operations in accordance with safety protocols and company procedures
- Supported field engineers in setting up logging tools and equipment for data acquisition
- Communicated effectively with onsite team members to ensure smooth operations and timely completion of tasks

HAULAGE MAINTENANCE OFFICER

MATRIX ENERGY GROUP | Jan 2022 - March 2023

- Performed daily inspections and maintenance checks on haulage equipment to ensure optimal functionality and safety standards compliance
- Collaborated with the procurement team to source and maintain adequate inventory levels of spare parts and supplies for timely repairs and replacements

MAINTENANCE TECNICIAN

CLETUS ELECTRICAL & ELECTRONIC FOUNDATION | 2015 - 2017

- Performed routine maintenance tasks on electrical and electronic equipment to ensure operational functionality
- Troubleshooted and repaired faulty electrical systems to ensure smooth operations.
- Collaborated with other maintenance engineers to schedule and prioritize maintenance activities for optimal efficiency

SKILLS

- **Soft Skills:** Communication Skills, Problem-solving, Creativity, Leadership
- **Programming Languages:** React, Node.js, Express, MongoDB
- **Web Development:** Full-stack Development, API Development, Frontend Development, Backend Development
- **Project Management:** Project Planning, Resource Allocation, Operational Efficiency
- **AI Technology:** AI Development, AI-assisted Content Generation
- **Operations Management:** Productivity Improvement

EDUCATION

ELECTRICAL & ELECTRONIC ENGINEERING
PETROLEUM TRAINING INSTITUTE | 2019-2021

- 3.7/4.0

PROJECTS

ApplyRight
Link: https://applyright.com.ng/

- Developed an AI-powered career platform to assist job seekers in creating tailored resumes for specific job postings.
- Utilized React, Node.js/Express, and MongoDB to build a robust platform with features like AI-assisted content generation and job-fit scoring.
- Resulted in improved resume quality and personalized job application strategies for users.

TestifyRoom
Link: https://testifyroom.com/

- Developed TestifyRoom, a full-stack, faith-based social platform designed for sharing personal testimonies of faith as a spiritual alternative to mainstream social media.
- Implemented a platform devoid of algorithms, ads, and vanity metrics to create a distraction-free space for believers to document and share stories of God's faithfulness.
- Resulted in a sacred online community where users could freely express their faith and share experiences of God's faithfulness in a supportive environment.

Field Tracker: Operations Management Tool
Link: https://fieldtracker.com.ng/app/

- Developed Field Tracker to improve tracking of job statuses and streamline field personnel management.
- Utilized interactive mapping and resource allocation tools to enhance operational efficiency.

- Resulted in increased productivity and better coordination among field personnel.
